

```
# Python program to count the
# number of lines in a text file

# Opening a file
file = open("gfg.txt", "r")

Counter = 0

# Reading from file
Content = file.read()
CoList = Content.split("\n")

for i in CoList:
    if i:
        Counter += 1

print("This is the number of lines in th
print(Counter)
```

## Output:

This is the number of lines in the file

4
